

Saving and Sharing Order Favorites in Cerner

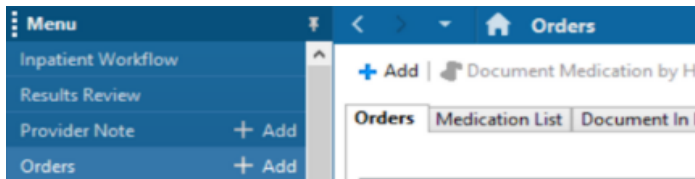

Authored by Oklahoma Clinical Informatics

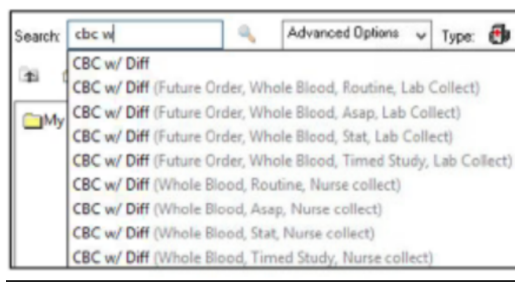

Overview: Saving and sharing order favorites is an efficient and quick way for end-users to access their most commonly used orders. This job aid walks you through how to save favorite orders and use other physicians' saved favorite orders.

Saving Individual Order Favorites

1. From a patient's chart click **Add** on the **Orders** tab.

2. From the **Add Order** dialog box, search and select the order you wish to add as your favorite.

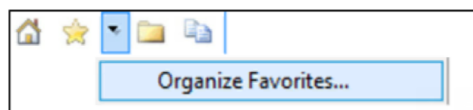

3. Click **Done** to close the Add Order dialog box.
4. Complete the Order Entry Details you wish to add as a favorite.
5. When finished, right click on the order and select **Add to Favorites**.
6. Click **OK** to save it to the main favorites folder or click **Create Folder** to save it in a new folder.
7. Select the **Favorites** button  in the **Add Order** window to verify the entry.

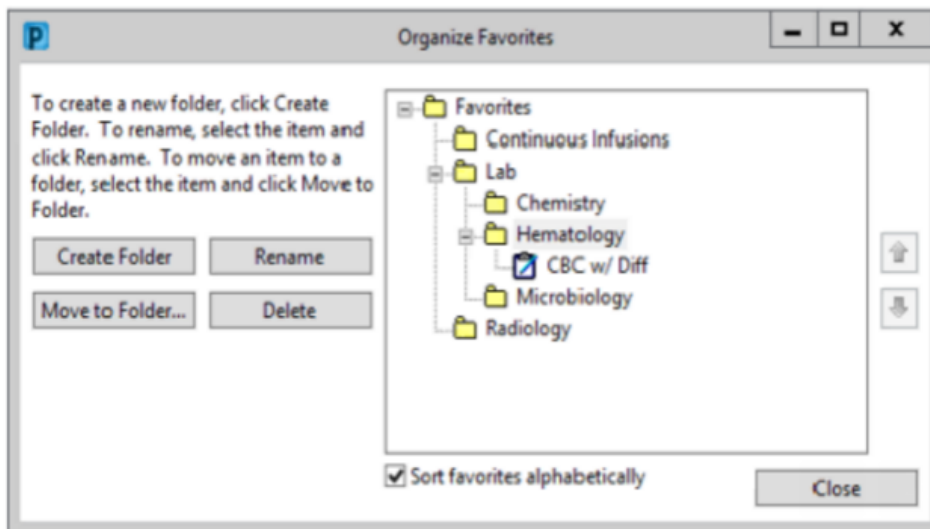

Organizing Favorites

From the Organize Favorites dialog box, the user can create new folders, drag and drop orders into different folders, rename folders and sort folders alphabetically.

1. From the **Add Order** dialog box, expand **Organize Favorites** (select the black arrow next to the star).

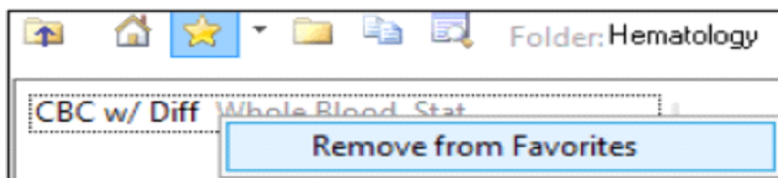

2. The Organize Favorites Dialog box is displayed.

3. Select the **Create Folder** button and create folders to group your individual orders together.
Examples of favorites: Lab, Rad, PRN, Pain Medications, etc.
4. To move an order from one favorites folder to another, you click and drag the order into the folder of your choice.
5. Check the box for **Sort favorites alphabetically**.
Note: By default, the folders sort themselves according to the original sequence in which they were added.
6. To re-sequence items one by one, select the item and click the up and down buttons to move them.
Note: The up and down arrows are on the right of the Organize Favorites dialog box.

Removing Individual Order Favorites

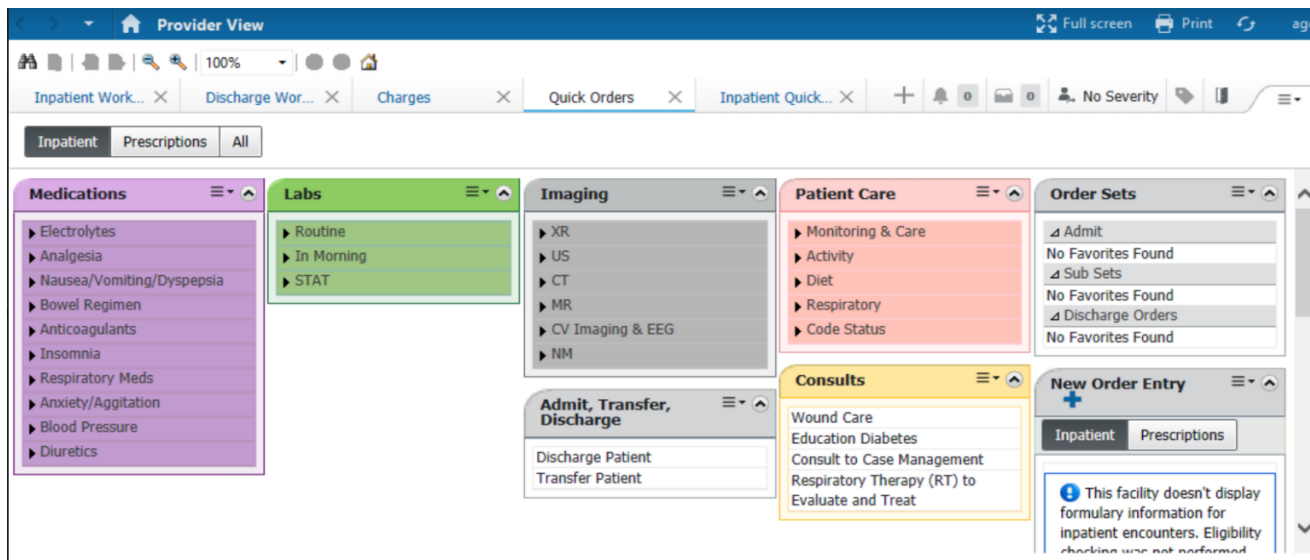

1. In the **Add Order** dialog box, click the **Favorites** button  to open the **Favorites** folder.
2. Right-click an order and select **Remove from Favorites**.

3. Click **done**.

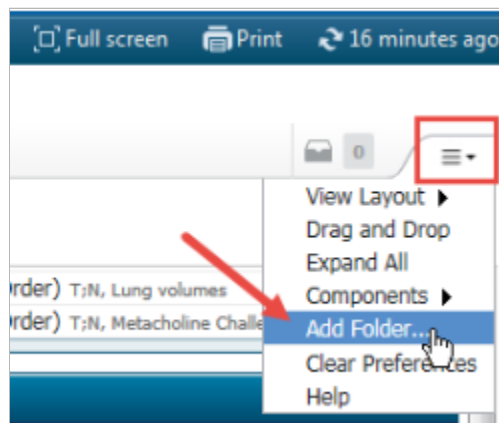

Quick Orders

The Quick Orders page is a view that combines a lot of orders into a one page catalog of frequently used orders.

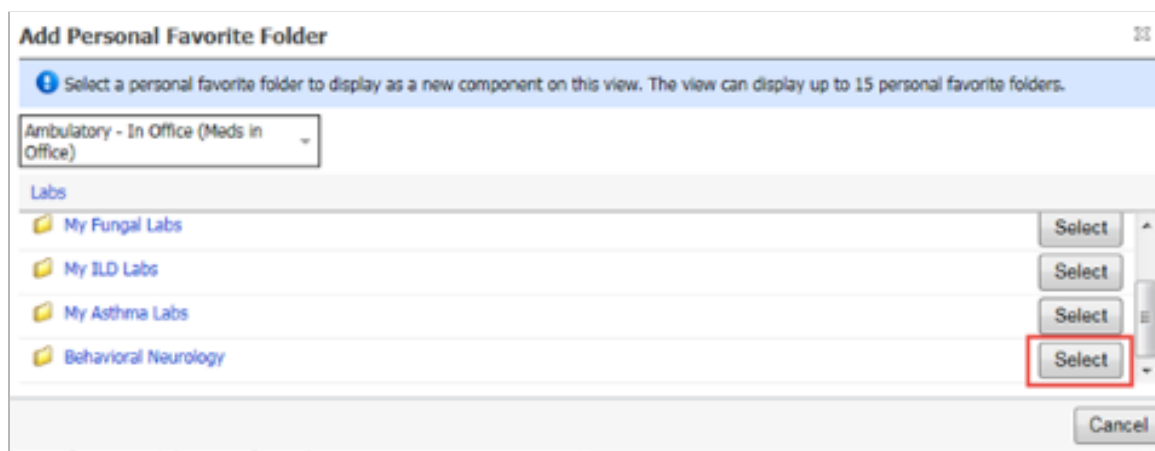

You can add your favorite folders to Quick Orders.

1. Go to the top right of the screen, choose the down arrow, then choose **Add Folder**.

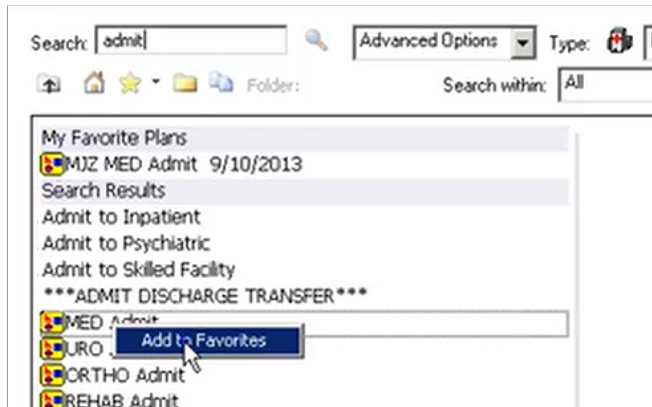

2. Scroll down to the folder you wish to add a click on **select**.

Saving a New PowerPlan Favorite

In addition to single orders, you have the ability to save PowerPlans as your favorite. PowerPlans group many orders together into one single order set so you can add several orders specific to a patient's admission or diagnosis all at once.

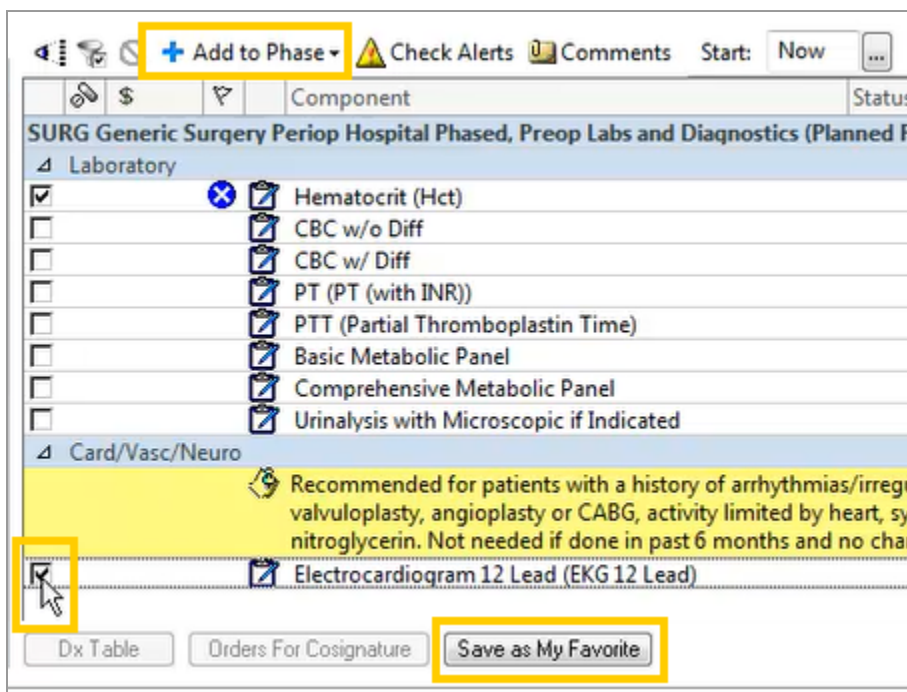

1. Navigate to the **Orders** component of the patient chart.
2. Click **Add**.
3. In the Find box, enter the name of the  Powerplan and press ENTER.
4. Right click on the appropriate PowerPlan and select **Add to Favorites**.

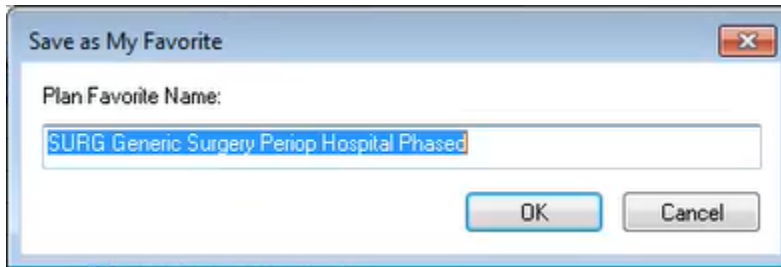

5. Click **Done**. The powerplan will now be in the **My Favorite Plans** folder.

You can also customize a powerplan before saving it as a favorite.

1. Repeat the steps above to find a powerplan.
2. Double click on the powerplan.
3. Modify the PowerPlan to meet the needs of your patient
 - a. Check or uncheck orders as needed.
 - b. Add additional orders by clicking **Add to Phase**.
 - c. Modify order by right-clicking on an order and **select modify**.
4. When you are done, click **Save as My Favorite**.

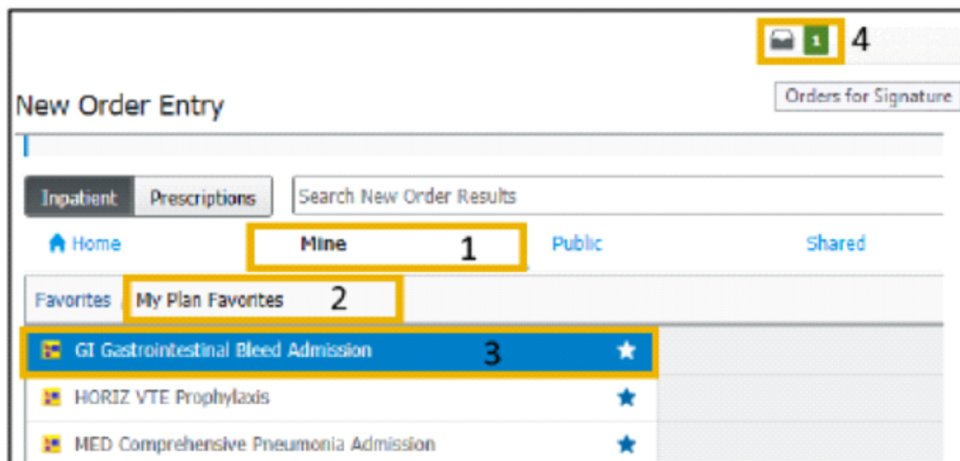

5. Modify the name of the PowerPlan if you desire and click **OK**.
