

PowerChart Touch Mobile App Sign-in Issues

Authored by Oklahoma Clinical Informatics

Overview: This job aid provides physicians with step-by-step troubleshooting instructions for resolving common sign-in errors encountered when using the PowerChart Touch mobile application on iPhone devices.

ERROR #1: 'Sorry, but we're having trouble signing you in'

Workflow: Clearing Cached Credentials for PowerChart Touch

What to do (Action)	Where to click (Location)
1. Force close the app	Swipe up from the bottom of the iPhone screen and pause, then swipe up on the PowerChart Touch app to close it completely.
2. Open iPhone Settings	Tap the Settings app (gear icon) on the iPhone home screen.
3. Locate browser settings	Scroll down and tap on Safari (or their default browser, like Chrome).
4. Clear cached data	Scroll down and tap Clear History and Website Data .
NOTE: This will clear browsing history, which is necessary to remove the hidden Microsoft token causing the roadblock.	
5. Confirm the action	Tap Clear History and Data to confirm.
6. Relaunch and log in	Open PowerChart Touch again. It should now prompt for a fresh Microsoft login where they can enter their correct Ascension credentials.

ERROR #2: 'Access to Oracle Health is blocked'

IMPORTANT! This error indicates the device's IP address tracking settings are interfering with Ascension's security policy. The physician must disable **Limit IP Address Tracking** on their current connection type.

Error Message: "Access to Oracle Health is blocked by your organization's security policy. Access to Ascension applications and services using personal VPNs or anonymous proxies is prohibited. Please disconnect from your private VPN or proxy service and try to sign-in again."

Connection Type	Action
If using Wi-Fi (Ascension network or Home)	Open your iPhone Settings . Tap Wi-Fi . Tap the blue "i" icon next to the network you are currently connected to. Scroll down and toggle Limit IP Address Tracking to OFF .
If using Cellular Data (No Wi-Fi)	Open your iPhone Settings . Tap Cellular . Tap Cellular Data Options . Toggle Limit IP Address Tracking to OFF .
